Anti-ragging Policy of SVET.

The anti-ragging policies of SVET are based on the Honorable Supreme Court of India's ruling and UGC regulations on curbing the menace of ragging in higher education institutions, 2009. Our institute has been free from this menace because of the active cooperation of the faculty, students, parents and staff. We also continually make an effort to free our campus from ragging. The anti-ragging cell is being constituted and stringent measures had been taken to prevent ragging in the campus. The mobile numbers of anti-ragging cell members are prominently displayed in the notice boards. The anti-ragging squad conducts regular and surprise visits to the hostels, library, food court, sport facilities and ensure the fresher's are comfortable. The newly admitted students should submit anti-ragging undertaking online / produce anti-ragging affidavit on a stamp paper as per the direction of Supreme Court of India.

About trust and its objectives

The SVET is one of the esteemed institutions in the garden city of Bengaluru and located 12 kms away from Bengaluru Central Railway Station. The trust believes in true service and brings out qualified professionals who are the real strength of our Institution, Society as well as our country. Bengaluru is the capital of the Indian state of Karnataka. Bengaluru is India's third largest city and fifth largest metropolitan area. Bengaluru evolved into a manufacturing hub for public sectors heavy industries particularly aerospace, space and defense.

The city enjoys a pleasant climate throughout the year. Its three-lined streets and abundant greenery have led to it being named 'Garden City of India.' Bengaluru is also referred to as the Silicon Valley of India and account for 40% of India's software exports.

Home to prestigious colleges, research institutions, health education institutions and hospitals. The city has the second-highest literacy rate among the metropolitan cities in the nation.

High Quality Teaching

Daily, nurses face complex situations where knowledge, critical thinking, and problem-solving skills are required for safe patient care. Thus, nurse faculties are challenged to prepare competent graduates to meet the ever-changing and complex demands of the contemporary health care system. Specifically, over the last decade, there has been a shifting paradigm in nursing education from a teacher-centered to a learner-centered classroom environment, prompting educators, clinicians, and health care employers to pose many questions about effective teaching strategies. How can educators facilitate critical thinking, clinical decision making, and instill values of lifelong learning? What are the key elements of an effective nurse educator? Teaching in Nursing for nursing students the faculties serves as guide to respond to these questions and help nurse educators facilitate student learning goals.

Highlights
